- 3.

IN THE CLAIMS

Claim 72. Replace, "The method of claim 71" with "The method of claim 68".

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The claimed invention provides novel use for dividing a media data title into blocks, and further dividing the blocks into sub-blocks, caching some of the sub-blocks at a proxy server computer system, which is located between a central server computer system and clients, so when a client requests a media data title, the proxy server determines what sub-blocks are needed from the central server to combine with the sub-blocks that are cached at the proxy, in order to provide the client with the complete media data title. The sub-blocks comprise partial information of video frames. The process of combining the sub-blocks includes combining the video information at the lower sampling rate from

the proxy server with video information taken at sampling times different from the set of sampling times of video frames from the central server computer system, into video data at a higher sampling rate to provide to the client. Supporting portions of the specification can be found at page 6, lines 15-25, page 14, lines 20-30, page 16, lines 10-20, page 18, lines 1-10, and page 31, lines 10-25, which was not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
